NONPUBLIC SCHOOLS LOW INCOME ELIGIBILITY for 2014-2015

To the Parent/Guardian: It is becoming increasingly important for St. Joseph School to know the number of students who qualify as “low income.” There are several programs and grants that may be available to our students that are at least in part dependent on the number of “low income” students. Programs such as the federal Title I remedial reading and math, the telecommunications e-rate discounts, the federally subsidized school lunch program, and private foundation grants. The information provided on this form will be held in strict confidence. Qualifying names are not released to anyone, only the total number of eligible students. Please review the scale below to determine if your child qualifies as “low income.” If your total household income is at or below the total number of household members, you qualify. **If you qualify, please complete and return this form.** Without your cooperation St. Joseph School will not be able to access all available resources for our students.

**Student Information:** Please print the name/s of the/your child/ren who attend this school.
