Together in preschool we've learned and grown so much! It's hard to believe that this is our last month of preschool for the year!

We are watching and waiting as our chicks and butterfly chrysalis begin to hatch. We are learning about animals that come from eggs (Oviparous) and how they grow and change (Metamorphosis). The Toledo Zoo will visit, bringing live animals for us to see and learn about their habitats and special features. This is always a treat!

Other highlights will include discussions about ocean life, summer fun, our families, and favorite preschool memories.

On June 1st we will celebrate with preschool families at our end of the year Family Celebration. We will gather in church where all of our preschool friends will sing songs and those moving onto kindergarten will cross over a bridge symbolizing the new journey they will soon begin. More information will be sent home in the coming weeks.

It has certainly been an incredible year full of fun, learning, blessings and blossoming friendships!
